NY/NJ Chauffeur Services

I wanted to thank you and your team for putting NY NJ Car Service ahead of the competition AGAIN! I used your service back in 2013 when we were desperate for work as a new limousine company. You worked with me and 2 new marketing workers of mine to build us up into what we became today. As owner of the company with your knowledge and expertise its putting money into my pocket, keeping drivers happy and giving our staff some incentives for more cash in their pocket with your tactics.

Simply put, if you want to gain business; gain more knowledge of this business; learn how to upsell within your company; HIRE BRUNO at limousineexpert.com! It's a no-brainer! He can be hired for less money than 2 reservations per week!!

We just ran an email marketing campaign and had a 56% open rate!!!! It's unheard of but we did it, all with Bruno's leadership! Just that email alone can boost business by 20%!!

Gold Coast Limousine

Bruno was a limousine operator just like me and understands the thanklessness and struggle of being an owner. Within our first month (and I take things slow) we contracted an exclusive transportation deal with a 5- star hotel. Within the first 90 days we had picked up a number of corporate clients who have added already over 100 hours of bus service and over a hundred airport transfers, and they love our service. It seems as if customers can now sense that we are for real and they are lining up at our doorstep. I will need to increase my fleet. now were out of bed and on a superhighway to success. I know that sounds a bit cliché... how about this: "Bruno's strategies WORK!"

ExecuTesla

"Bruno, the limousine expert has a vast catalogue of resources that will get you up and running. We were less than a year-old business when we contracted with him. He helped us approach and secure new clients, and always seemed to have a plan of action for any problem we had. One of the best parts about working with Bruno is his "systems approach" to training. All of the vast resources that were shared with us through the program were ours to keep and reference back to even after our contract with Bruno was up. Bruno has even stayed in touch with us and checked in our business months after our contract was up. He has become a friend throughout the process."

Shreveport Limousine

"I have been in business for over 13 years and our marketing plans, policies, systems, and procedures had become outdated and ineffective. After using Bruno and Limousine Expert, my business increased 45% after 30 days, 68% after 60 days and 74% after 90 days. Their marketing plans and systematic approach to growing your business will provide 100 times return on your investment. I highly recommend! I told my staff I was so happy I found Limousine Expert before my competitors did."

Vander Plaat Limousine

I have the pleasure of knowing Bruno for a few years now and working with him one on one. Bruno is an extremely polished professional, service oriented and has great attention to details. He was able to identify many variations and opportunities in our company that we weren't aware of.

Bruno has taken seemingly monumental tasks and broken them down to a level that everyone can understand and take action on.

His skills would be a valuable asset to your company. Just follow and execute his plans.

Travel U Go

Hello Bruno,
You have a great team and I am very glad that I hired you to develop a business plan to acquire Travelugo United Kingdom and Brazil. Countless hours and conference calls made it all worth it after seeing the results. This was really a great deal for my company and for Steve at Travelugo. Next time something similar comes up, we know who to call.

I want to thank you for your total commitment to our company. We don't have the words to express our gratefulness for your mentorship and guidance for the past year. With your help we regained a corporate account, a new agreement with a nonprofit organization and a pharmaceutical company, established relationships with several new hotels, developed our group business and helped improve our website while lowering our operations cost by 25%.

Thank you for saving our company \$200,000.00 by opposing the acquisition of a local company that was a bad deal. If it was not for your knowledge we would have made a big mistake. Our revenue for this month is 50% more than last year and our operating costs are significantly lower.

We look forward to working with you for many years to come.

I was also pleasantly when I received over a half a dozen calls after an email marketing you sent to limousine companies worldwide.

I am excited about the customer development and winning back customer strategies we are about to start.

I have enjoyed working with you and really want to thank you for guiding me and helping me grow my business. I look forward to working with for many more years in the future.

RCT Limo

We were very hesitant to hire anyone after having lost money with many different companies but decided to take a chance with Bruno and his group. I will just stated in numbers so that you can see what they have done for us. We started going after large affiliates, corporate business and meetings and events. In 90 days, our revenue had increased over 160%. Everything has changed, we are buying brand new sprinters and XTS and have now hired a part time sales agent to work with Bruno.

They have a lot of resources to offer, email marketing, their own lead generation call center, they provide the leads and deliver clients in a silver platter month after month.

Bruno is now part of the family now, we will never be able to express our gratitude, we are so excited and can't imagine what the future will bring.

LUXE Charters

I've got nothing but praises for you; I couldn't have secured any of the Agreements with the five countries for the G20 if it was not for your guidance and support. You trained our staff, provided all the materials we needed and created the perfect RFP. You saved us money without compromising our service, you motivated our staff and kept the morale high, at the end I didn't need it but by knowing you had my back gave me the assurance that I could not fail. You gave us insight into the future of this business, and I am thankful that you were kind enough to join us on this experience in Australia. Now I don't only see you as a mentor but also a great friend. (G20 Summit in Australia, \$600,000.00 in revenue in 2 weeks providing services for five countries)
